# YOUR SHIP

Nous circulerons d'île en île sur les ferrys réguliers qui sillonnent la mer Egée depuis le Pirée.

Ces gros bateaux sont des gages d'arrivée sur les îles. Il faut savoir que les ferrys grecs peuvent naviguer jusqu'à force 9/10 selon leur taille. Il peut y avoir beaucoup de vent en mer sans que l'on se rende même compte de ses effets sur les îles. Il suffit d'être dans une crique ou une baie (ou du bon côté de l'île) abritée pour ne pas en ressentir les effets.
