Itinerary

On site, we may sometimes have to modify somewhat the itinerary indicated: either at the level of the organization (problem of overloading of accommodation, modification of boat rotations), or directly because of the guide (weather forecast, group level ...). Trust us, these changes are always in your best interest. Warning ! In the Mediterranean, the weather can change and the boats shifted in their passage. We adapt to the circumstances. All indicated boat times are subject to change.

The visits we offer are not contractual and depend on the opening of the sites and / or the possibility of welcoming us. We cannot be held responsible if it is impossible to visit a workshop or a museum.

SOME PRECISIONS

Grade

Stay for families. Easy, no portage. Children from 8 years old. Hike accessible to fit hikers, motivated by walking and group life. 2 to 3h30 of walking per day. The height difference is variable, between 100 and 380 m (maximum) per day.

Luggage transport

You only carry a small backpack with your daily things, the picnic and the groceries. You will have to transfer all of your luggage from the boat to the vehicle that transports the luggage to the islands, and then to your room (and vice versa). That's all.

Transfers

The boat

We will travel from island to island on the regular ferries that ply the Aegean Sea from Piraeus.

These large boats are a guarantee of arrival on the islands. It should be noted that Greek ferries can sail up to force 9/10 depending on their size. It can be very windy at sea without even realizing its effects on the islands. You only need to be in a sheltered cove or bay (or on the right side of the island) to not feel the effects.

The boat for the mini cruise in Naxos is a catamaran sailboat. In case it is unavailable or full, the cruise will be on a monohull from the same company.

Group

From 4 to 15 participants.

Exceptionally, the group may have one more person, for example if a couple registers when there is only one place left, or in the event of simultaneous registrations.
